FINANCIAL STATEMENTS AND REVIEW REPORT

OF INDEPENDENT ACCOUNTANTS

JUNE 30, 2018 AND 2017

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

VISUAL PHOTONICS EPITAXY CO., LTD. NOTES TO THE FINANCIAL STATEMENTS SIX MONTHS ENDED JUNE 30, 2018 AND 2017

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS, EXCEPT AS OTHERWISE INDICATED) (UNAUDITED)

1. HISTORY AND ORGANISATION

Visual Photonics Epitaxy Co., Ltd. (the "Company") was incorporated in November 1996. The Company is primarily engaged in research & development, manufacture and sales of optoelectronic semiconductors epitaxy, optoelectronic components products and etc. On January 24, 2002, the Company's common stock was officially listed on the Taiwan Stock Exchange Corporation.

2. <u>THE DATE OF AUTHORISATION FOR ISSUANCE OF THE FINANCIAL STATEMENTS AND</u> <u>PROCEDURES FOR AUTHORISATION</u>

These financial statements were authorised for issuance by the Board of Directors on July 26, 2018.

- 3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS
 - (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC")
 New standards, interpretations and amendments endorsed by FSC effective from 2018 are as follows:

	Effective date by
	International
	Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 2, 'Classification and measurement of share-based	January 1, 2018
payment transactions'	
Amendments to IFRS 4, 'Applying IFRS 9, Financial instruments with IFRS 4,	January 1, 2018
Insurance contracts'	
IFRS 9, 'Financial instruments'	January 1, 2018
IFRS 15, 'Revenue from contracts with customers'	January 1, 2018
Amendments to IFRS 15, 'Clarifications to IFRS 15, Revenue from contracts	January 1, 2018
with customers'	
Amendments to IAS 7, 'Disclosure initiative'	January 1, 2017
Amendments to IAS 12, 'Recognition of deferred tax assets for unrealised losses	January 1, 2017
Amendments to IAS 40, 'Transfers of investment property'	January 1, 2018
IFRIC 22, 'Foreign currency transactions and advance consideration'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 1,	January 1, 2018
'First-time adoption of International Financial Reporting Standards'	
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IFRS 12,	January 1, 2017
'Disclosure of interests in other entities'	
Annual improvements to IFRSs 2014-2016 cycle - Amendments to IAS 28,	January 1, 2018
'Investments in associates and joint ventures'	

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company

New standards, interpretations and amendments endorsed by the FSC effective from 2018 are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 9, 'Prepayment features with negative compensation'	January 1, 2019
IFRS 16, 'Leases'	January 1, 2019
Amendments to IAS 19, 'Plan amendment, curtailment or settlement'	January 1, 2019
Amendments to IAS 28, 'Long-term interests in associates and joint ventures'	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

A. IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

In the 1st quarter of 2018, the Company reported to the Board of Directors that IFRS 16 has no material impact to the Company.

The Company expects to recognise the lease contract of lessees in line with IFRS 16. However, the Company intends not to restate the financial statements of prior period (collectively referred herein as the "modified retrospective approach"), and the effects will be adjusted on January 1, 2019.

B. IFRIC 23, 'Uncertainty over income tax treatments'

This Interpretation clarifies when there is uncertainty over income tax treatments, an entity shall recognise and measure its current or deferred tax asset or liability applying the requirements in IAS 12, 'Income taxes' based on taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates determined applying this Interpretation.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

	Effective date by
	International Accounting
New Standards, Interpretations and Amendments	Standards Board
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets	To be determined by
between an investor and its associate or joint venture'	International Accounting
	Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2021

The above standards and interpretations have no significant impact to the Company's financial condition and financial performance based on the Company's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The financial statements of the Company have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and the International Accounting Standard 34, 'Interim financial reporting' as endorsed by the FSC.

- (2) Basis of preparation
 - A. Except for the following items, the financial statements have been prepared under the historical cost convention:
 - (a) Financial assets at fair value through other comprehensive income/Available-for-sale financial assets measured at fair value.
 - (b) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
 - B. The preparation of financial statements in conformity with International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the FSC (collectively referred herein as the "IFRSs") requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 5.

- C. In adopting IFRS 9 effective January 1, 2018, the Company has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognised as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 was not restated. The financial statements for the year ended December 31, 2017 or were prepared in compliance with International Accounting Standard 39 ('IAS 39') and related financial reporting interpretations. Please refer to Notes 12(4) for details of significant accounting policies and details of significant accounts.
- (3) Foreign currency translation

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"). The financial statements are presented in New Taiwan Dollars, which is the Company's functional and presentation currency.

Foreign currency transactions and balances

- A. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognised in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are retranslated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognised in profit or loss.
- C. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date; their translation differences are recognised in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- D. All foreign exchange gains and losses are presented in the statement of comprehensive income within 'other gains and losses'.
- (4) Classification of current and non-current items
 - A. Assets that meet one of the following criteria are classified as current assets; otherwise they are classified as non-current assets:
 - (a) Assets arising from operating activities that are expected to be realised, or are intended to be sold or consumed within the normal operating cycle;
 - (b) Assets held mainly for trading purposes;
 - (c) Assets that are expected to be realised within twelve months from the balance sheet date;

- (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.
- B. Liabilities that meet one of the following criteria are classified as current liabilities; otherwise they are classified as non-current liabilities:
 - (a) Liabilities that are expected to be settled within the normal operating cycle;
 - (b) Liabilities arising mainly from trading activities;
 - (c) Liabilities that are to be settled within twelve months from the balance sheet date;
 - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.
- (5) Cash equivalents

Cash equivalents refer to short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits that meet the definition above and are held for the purpose of meeting short-term cash commitments in operations are classified as cash equivalents.

- (6) Financial assets at fair value through other comprehensive income
 - A. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Company has made an irrevocable election at initial recognition to recognise changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (a) The objective of the Company's business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
 - B. On a regular way purchase or sale basis, financial assets at fair value through other comprehensive income are recognised and derecognised using trade date accounting.
 - C. At initial recognition, the Company measures the financial assets at fair value plus transaction costs. The Company subsequently measures the financial assets at fair value:The changes in fair value of equity investments that were recognised in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognised as revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the

(7) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Company a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The Company initially measures accounts and notes receivable at fair value and subsequently recognises the amortised interest income over the period of circulation using the effective interest method and the impairment loss. A gain or loss is recognised in profit or loss. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.
- (8) <u>Impairment of financial assets</u>

For debt instruments measured at fair value through other comprehensive income and financial assets at amortised cost, at each reporting date, the Company recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Company recognises the impairment provision for lifetime ECLs.

(9) <u>Derecognition of financial assets</u>

The Company derecognises a financial asset when the contractual rights to receive the cash flows from the financial asset expire.

(10)Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the weighted-average method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (allocated based on normal operating capacity). It excludes borrowing costs. The item by item approach is used in applying the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

(11)Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalised.
- B. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

- C. Land is not depreciated. Other property, plant and equipment apply cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. Each part of an item of property, plant, and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.
- D. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year-end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Buildings and structures	50 \sim 60 years
Machinery and equipment	$3 \sim 15$ years
Office equipment	$3 \sim 5$ years
Other equipment	$3 \sim 7$ years

(12)Leased assets/ operating leases (lessee)

Payments made under an operating lease (net of any incentives received from the lessor) are recognised in profit or loss on a straight-line basis over the lease term.

(13)<u>Intangible assets</u>

Intangible assets, mainly patent and computer software, are recognised at cost and amortised on a straight-line basis over their estimated useful lives of 3 ~ 5 years.

(14)Impairment of non-financial assets

The Company assesses at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortised historical cost would have been if the impairment had not been recognised.

(15)Borrowings

Borrowings comprise long-term and short-term bank borrowings. Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

(16)Notes and accounts payable

- A. Accounts payable are liabilities for purchases of raw materials, goods or services and notes payable are those resulting from operating and non-operating activities.
- B. The Company initially measures notes and accounts payable at fair value and subsequently amortises the interest expense in profit or loss over the period of circulation using the effective interest method. The short-term notes and accounts payable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(17) Derecognition of financial liabilities

A financial liability is derecognised when the obligation specified in the contract is either discharged or cancelled or expires.

(18)Employee benefits

A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect of service rendered by employees in a period and should be recognised as expense in that period when the employees render service.

- B. Pensions
 - (a) Defined contribution plans

For defined contribution plans, the contributions are recognised as pension expense when they are due on an accrual basis. Prepaid contributions are recognised as an asset to the extent of a cash refund or a reduction in the future payments.

- (b) Defined benefit plans
 - i. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Company in current period or prior periods. The liability recognised in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The net defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of government bonds (at the balance sheet date) of a currency and term consistent with the currency and term of the employment benefit obligations.
 - ii. Remeasurements arising on defined benefit plans are recognised in other comprehensive income in the period in which they arise and are recorded as retained earnings.
 - iii. Past service costs are recognised immediately in profit or loss.
 - iv. Pension cost for the interim period is calculated on a year-to-date basis by using the pension cost rate derived from the actuarial valuation at the end of the prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events. And, the related information is disclosed accordingly.

C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the Company's decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Company recognises expense as it can no longer withdraw an offer of termination benefits or it recognises relating restructuring costs, whichever is earlier. Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

- D. Employees' compensation and directors' and supervisors' remuneration
 - Employees' compensation and directors' and supervisors' remuneration are recognised as
 expense and liability, provided that such recognition is required under legal or constructive
 obligation and those amounts can be reliably estimated. Any difference between the resolved
 amounts and the subsequently actual distributed amounts is accounted for as changes in estimates.
 If employee compensation is paid by shares, the Company calculates the number of shares based
 on the closing price at the previous day of the board meeting resolution.

(19)Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or items recognised directly in equity, in which cases the tax is recognised in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.
- C. Deferred tax is recognised, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the balance sheet. However, the deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.
- D. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. At each balance sheet date, unrecognised and recognised deferred tax assets are reassessed.

- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realise the asset and settle the liability simultaneously.
- F. The interim period income tax expense is recognised based on the estimated average annual effective income tax rate expected for the full financial year applied to the pretax income of the interim period, and the related information is disclosed accordingly.
- G. If a change in tax rate is enacted or substantively enacted in an interim period, the Company recognises the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

(20)Share capital

- A. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or stock options are shown in equity as a deduction, net of tax, from the proceeds.
- B. Where the Company repurchases the Company's equity share capital that has been issued, the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the Company's equity holders. Where such shares are subsequently reissued, the difference between their book value and any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the Company's equity holders.

(21)Dividends

Dividends are recorded in the Company's financial statements in the period in which they are approved by the Company's shareholders. Cash dividends are recorded as liabilities; stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance.

(22)<u>Revenue recognition</u>

The Company manufactures and sells optoelectronic semi-conductors epitaxy, component and etc. Revenue is measured at the fair value of the consideration received or receivable taking into account of business tax, returns, rebates and discounts for the sale of goods to external customers in the ordinary course of the Company's activities. Revenue arising from the sales of goods should be recognised when the Company has delivered the goods to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold, and the customer has accepted the goods based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

(23)Operating segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company's chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors that makes strategic decisions.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF

ASSUMPTION UNCERTAINTY

The preparation of these financial statements requires management to make critical judgements in applying the Company's accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year; and the related information is addressed below:

(1) <u>Critical judgements in applying the Company's accounting policies</u> None.

(2) Critical accounting estimates and assumptions

Evaluation of inventories

As inventories are stated at the lower of cost and net realisable value, the Company must determine the net realisable value of inventories on balance sheet date using judgements and estimates. Due to the rapid technology innovation, the Company evaluates the amounts of normal inventory consumption, obsolete inventories or inventories without market selling value on balance sheet date, and writes down the cost of inventories to the net realisable value. Such an evaluation of inventories is principally based on the demand for the products within the specified period in the future. Therefore, there might be material changes to the evaluation.

As of June 30, 2018, the carrying amount of inventories was \$343,252.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	June 30, 2018		Decen	nber 31, 2017	June 30, 2017	
Cash on hand and revolving funds	\$	291	\$	291	\$	353
Checking accounts and demand deposits		1,067,003		610,730		820,073
Time deposits		182,920		316,280		327,000
Total	\$	1,250,214	\$	927,301	\$	1,147,426

A. The Company transacts with a variety of financial institutions all with high credit quality to disperse credit risk, so it expects that the probability of counterparty default is remote.

B. The Company has no cash and cash equivalents pledged to others.

(2) Financial assets at fair value through other comprehensive income

Items	June	30, 2018
Non-current items:		
Equity instruments		
Unlisted corporate stock		
Branchy Technology Co., Ltd.	\$	9,573
Hokuang Optics Co.,Ltd.		59,200
Subtotal		68,773
Accumulated impairment	(68,773)
Total	\$	-

A. The Company selected to classify equity investments that are considered to be strategic investments as financial assets at fair value through other comprehensive income. The fair value of such investments amounted to \$0 at June 30, 2018.

- B. The Company assessed that the fair value of its equity investments in Branchy Technology Co., Ltd. had been in decline for an extended period of time, and Branchy Technology Co., Ltd. had applied for discontinuing its business from November 17, 2015 to October 16, 2018. Thus, the Company recognised valuation adjustment loss in full amount.
- C. The Company assessed that the fair value of its equity investments in Hokuang Optics Co., Ltd., which had an accumulated deficit, was significantly lower than the original investment cost. Thus, the Company recognised valuation adjustment loss in full amount.
- D. The Company recognised valuation adjustment \$0 for the both three months and six months ended June 30, 2018.
- E. The Company has no circumstances in which financial assets at fair value through other comprehensive income has been provided as pledge.
- F. Information of June 30, 2017 is provided in Note 12(4).

(3) Notes and accounts receivable

		June 30, 2018		mber 31, 2017		June 30, 2017
Notes receivable	\$		\$	229	\$	232
Accounts receivable	\$	399,093	\$	480,186	\$	377,001
Less: Allowance for uncollectible accounts	(580)	()	580)	(580)
	\$	398,513	\$	479,606	\$	376,421

A. The ageing analysis of accounts receivable and notes receivable are as follows:

Accounts receivable	Ju	June 30, 2018		nber 31, 2017	June 30, 2017		
Not past due	\$	333,620	\$	419,980	\$	345,688	
Up to 60 days		62,813		59,181		31,313	
61 to 90 days		-		933		-	
91 to 180 days		2,642		92		-	
Over 181 days		18		-			
	\$	399,093	\$	480,186	\$	377,001

(9) Pension

A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would

assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to qualify for retirement in the following year, the Company will make contributions for the deficit by next March.

- (b) For the aforementioned pension plan, the Company recognised pension costs of \$0, \$4,124, \$0 and \$8,110 for the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017, respectively.
- (c) Expected contributions to the defined benefit pension plans of the Company for the year ending December 31, 2019 amount to \$43.
- B. (a) Effective July 1, 2005, the Company has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
 - (b) The pension costs under defined contribution pension plans of the Company for the three months ended June 30, 2018 and 2017, and six months ended June30, 2018 and 2017, were \$1,866, \$1,695, \$3,668 and \$3,302, respectively.
- (10) Share capital
 - A. As of June 30, 2018, the Company's authorised capital was \$2,600,000, consisting of 260,000 thousand shares of ordinary stock (including 15,000 thousand shares reserved for employee stock options), and the paid-in capital was \$1,849,059 with a par value of \$10 (in dollars) per share. All proceeds from shares issued have been collected. There was no change in the number of the Company's ordinary shares outstanding in the 2nd quarter of 2018 and 2017.
 - B. Treasury shares
 - (a) Reason for share reacquisition and movements in the number of the Company's treasury shares are as follows: (There were no treasury shares as of June 30, 2018)

		June 30,	20	17
Name of Company		Number of shares		Carrying
holding the shares	Reason for reacquisition	(In thousands)		amount
The company	To be reissued to employees	2,250	\$	143,396

- (b) Pursuant to the R.O.C. Securities and Exchange Act, the number of shares bought back as treasury share should not exceed 10% of the number of the Company's issued and outstanding shares and the amount bought back should not exceed the sum of retained earnings, paid-in capital in excess of par value and realised capital surplus.
- (c) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should not be pledged as collateral and is not entitled to dividends before it is reissued.

(d) Pursuant to the R.O.C. Securities and Exchange Act, treasury shares should be reissued to the employees within three years from the reacquisition date and shares not reissued within the three-year period are to be retired. Treasury shares to enhance the Company's credit rating and the stockholders' equity should be retired within six months of acquisition.

(11) Capital surplus

Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalised mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

(12) <u>Retained earnings</u>

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve unless existing legal reserve exceeds or is equal to issued share capital. Special reserve is set aside or reversed in accordance with related laws or regulations.
- B. The Company's dividend policy is summarised below: as the Company operates in a growth stage and future expansion plans are expected in the future years, the earnings dividend policy considers fostering of competitiveness, capital needs in future years and expansion of share capital. For stable growth of earnings per share, dividends are adjusted based on performance, and cash dividends shall account for at least 10% of the total dividends distributed. The Board of Directors shall propose for dividend distribution based on capital structure and budget, and the proposals shall be resolved in shareholders' meetings.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.

E. The distribution of 2017 and 2016 earnings had been resolved at the stockholders' meeting on June 15, 2018 and June 8, 2017, respectively as follows:

	 2017				2016			
	Dividends per					Dividends per		
	share					share		
	 Amount	(in dollar)			Amount	(in dollar)	
Legal reserve	\$ 39,435			\$	46,711			
Cash dividends	462,265	\$ 2.50			462,265	\$	2.53	

Information about the distribution of retained earnings of the Company as proposed by the Board of Directors and resolved at the meeting of shareholders will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

F. For the information relating to employees' compensation and directors' and supervisors' remuneration, please refer to Note 6(17).

(13) Operating revenue

A. Disaggregation of revenue from contracts with customers

The Company derives revenue from the transfer of goods and services over time and at a point in time in the following major product lines and geographical regions:

For the three months ended June 30, 2018 Revenue from external customer contracts	Taiwan <u> \$ 266,585</u>	US <u>\$ 253,570</u>	All other segments \$ 32,071	Total \$ 552,226
For the six months ended June 30, 2018 Revenue from external customer contracts	Taiwan § 572,842	US <u>\$ 480,441</u>	All other segments \$ 61,822	Total \$ 1,115,105
For the three months ended June 30, 2017 Revenue from external customer contracts	Taiwan \$ 320,671	US \$ 229,355	All other segments \$ 13,222	Total \$ 563,248
For the six months ended June 30, 2017 Revenue from external customer contracts	Taiwan \$ 560,863	US \$ 459,260	All other segments \$ 36,281	Total \$ 1,056,404

B. Contract liabilities

The Company has recognised the following revenue-related contract liabilities:

	June	30, 2018
Advance sales receipts	\$	6,922

A. In accordance with the Articles of Incorporation of the Company, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation and directors' and supervisors' remuneration. The ratio shall be at least 5 ~ 15% for employees' compensation and shall not be higher than 3% for directors' and supervisors' remuneration. B. For the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017, employees' compensation was accrued at \$13,256, \$11,788, \$25,627 and \$21,527, respectively; directors' and supervisors' remuneration was accrued at \$4,971, \$4,421, \$9,610 and \$8,073, respectively. The aforementioned amounts were recognised in salary expenses. The employees' compensation and directors' and supervisors' remuneration were estimated and accrued based on 8% and 3% of distributable profit of current year for the six months ended June 30, 2018 and 2017.

Employees' compensation and directors' and supervisors' remuneration of 2017 as resolved by the meeting of Board of Directors were in agreement with those amounts recognised in the 2017 financial statements.

Information about employees' compensation and directors' and supervisors' remuneration of the Company as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(18) Income tax

(b) The income tax (charge) / credit relating to components of other comprehensive income:

B. The Company's income tax returns through 2016 have been assessed and approved by the Tax Authority.

\$

512

\$

- C. Under the amendments to the Income Tax Act which was promulgated by the President of the Republic of China in February 7, 2018, the Company's applicable income tax rate was raised from 17% to 20% effective from January 1, 2018. The Company has accessed the impact of the change in income tax rate.
- (19) Earnings per share

(20) Operating leases

The Company's transportation equipment is obtained through operating leases. The lease terms were between 1 to 3 years. Rent expenses recognised through current profit or loss for the six months ended 2018 and 2017, were both \$1,230. The future aggregate minimum lease payments receivable under non-cancellable operating leases are as follows:

	June 30, 2018		December 31, 2017		June 30, 2017	
Not later than one year	\$	1,251	\$	2,026	\$	2,461
Later than one year but not later than five years		1,114		1,570		2,366
live years	\$	2,365	\$	3,596	\$	4,827

(21) Supplemental cash flow information

A. Investing activities with partial cash payments

		2018	2017		
Purchase of property, plant and equipment	\$	139,532	\$	11,165	
Add: Opening balance of payable on equipment		35,068		37,912	
Less: Ending balance of payable on equipment	(50,587)	(14,387)	
Cash paid during the period	\$	124,013	\$	34,690	
. Investing activities with no cash flow effects					

For the six months ended June 30,

B. ıg

	For the six months ended June 30,				
	2018			2017	
Reclassification	\$	195	\$	62,471	

C. Financing activities with no cash flow effects

	For the six months ended June 30,

Cash dividends payable	\$	462,265	\$	462,265	

(22) Seasonality of operations

The Company is an epi-wafer provider which is the upstream of the compound semiconductor industry. The Company's products are used in power amplifiers and microwave switches etc. that are crucial components in mobile devices. As an upstream supply chain vendor of the wireless communication industry, the Company's product demand is affected by the following factors:

- A. Mobile brand makers: the timing of launching new mobile phones and their sales performance.
- B. Direct customers (Integrated Device Manufacturers (IDM) & Foundry): Design-in cycle time, Delivery lead time, capacity planning, inventory policy, stock level of different seasons, and speed of inventory digestion.
- C. Due to many components and modules in mobile Bill of Materials (BOM) table and their interdependence, shortage of the above may result in our products demand delay as well as revenue volatility.

7. RELATED PARTY TRANSACTIONS

- (1) <u>Names of related parties and relationship</u> None.
- (2) <u>Significant related party transactions</u> None.
- (3) Key management compensation

For the three months ended June 30,

		· · · · · ·		,		
10. <u>SIGNIFICANT DISASTER LOSS</u>				<u>,</u>		

11. SIGNIFICANT EVENTS AFTER THE BALANCE SHEET DATE

None.

12. <u>OTHERS</u>

(1) Capital management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

(2) Financial instruments

B. Financial risk management policies

- (a) The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.
- (b) Risk management is carried out by Company treasury department under policies approved by the Board of Directors. Company treasury identifies, evaluates and hedges financial risks in close co-operation with the Company's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas and matters, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

- C. Significant financial risks and degrees of financial risks
 - (a) Market risk

Foreign exchange risk

i. The Company's businesses involve some non-functional currency operations (the Company's functional currency is NTD). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

			June 30, 2018

ii.Analysis of foreign currency market risk arising from significant foreign exchange variation:

iii. The unrealised exchange gain (loss) arising from significant foreign exchange variation on the monetary items held by the Company for the three months ended June 30, 2018 and 2017, and six months ended June 30, 2018 and 2017 amounted to \$27,367, \$2,849,\$18,989 and (\$23,811), respectively.

<u>Price risk</u> Not applicable. <u>Cash flow and fair value interest rate risk</u> Not applicable.

- (b) Credit risk
 - i. Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
 - ii. According to the Company's credit policy, each local entity in the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.
 - iii. The Company adopts the assumptions under IFRS 9, the default occurs when the contract payments are past due over 90 days.
 - iv. The Company adopts following assumptions under IFRS 9 to assess when the contract payments were past due over 30 days based on the terms, there has been a significant increase in credit risk on that instrument since initial recognition.
 - v. The Company classifies customer's accounts receivable in accordance with customer types. The Company applies the modified approach to estimate expected credit loss under the provision matrix basis.
 - vi. The Company used the forecastability of Taiwan Institute of Economic Research boom observation report to adjust historical and timely information to assess the default possibility of accounts receivable. On June 30, 2018, the provision matrix is as follows:

	1	Without	ι	Jp to 60	ι	Jp to 90	U	p to 180	(Over 181	
		past due		days		days		days		days	 Total
<u>At June 30, 2018</u>											
Expected loss rate		0.03%		0.07%		0.20%		15.00%		100.00%	
Total book value	\$	333,620	\$	62,813	\$	-	\$	2,642	\$	18	\$ 399,093
Loss allowance	\$	100	\$	44	\$	-	\$	418	\$	18	\$ 580

vii. Credit risk information of 2017 is provided in Note 12(4).

(c) Liquidity risk

ът

- i. Cash flow forecasting is performed in the operating units of the Company and aggregated by the Company's treasury department. The Company's treasury department monitors rolling forecast of the Company's liquidity requirements to ensure it has sufficient cash to meet operational needs.
- ii. The treasury department invests surplus cash in interest bearing current accounts and time deposits, choosing instruments with appropriate maturities or sufficient liquidity to provide sufficient head-room as determined by the above-mentioned forecasts.
- iii. The table below analyses the Company's non-derivate financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date for non-derivative financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

Non-derivative financial liabilities:					
June 30, 2018	Less	than 1 year	Over 1 year		
Short-term borrowings	\$	280,137	\$	-	
Accounts payable		262,390		-	
Other payables		696,328		-	
Other current liabilities		8,479		-	
Long-term borrowings		4,353		417,411	
Non-derivative financial liabilities:					
December 31, 2017	Less	than 1 year	Ove	er 1 year	
Accounts payable	\$	237,096	\$	-	
Other payables		208,099		-	
Other current liabilities		9,993		-	
Non-derivative financial liabilities:					
June 30, 2017	Less	than 1 year	Ove	er 1 year	
Accounts payable	\$	240,869	\$	-	
Other payables		663,048		-	
Other current liabilities		9,174		-	

iv. The Company does not expect the timing of occurrence of the cash flows estimated through the maturity date analysis will be significantly earlier, nor expect the actual cash flow amount will be significantly different.

(3) Fair value information

- A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:
 - Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
 - Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

B. The related information of financial and non-financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets and liabilities are as follows:

June 30, 2018	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Financial assets at fair value through				
other comprehensive income				
Equity securities	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>
December 31, 2017	Level 1	Level 2	Level 3	Total

Available-for-sale financial assets	\$ -	\$ -	\$ -	\$ -
June 30, 2017	Level 1	Level 2	Level 3	Total
Assets				
Recurring fair value measurements				
Available-for-sale financial assets	<u>\$ -</u>	<u>\$ -</u>	\$ -	\$ -

C. For the six months ended June 30, 2018 and 2017, there was no transfer between Level 1 and Level 2.

D. The following chart is the movement of Level 3 for the six months ended June 30, 2018 and 2017:

	2018		2017
	Non-derivative	l	Non-derivative
	equity instrument	ec	quity instrument
At January, 1	\$	- \$	5,755
Losses recognised in other comprehensive income		- (5,755)
At June, 30	\$	- \$	

E. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at	Valuation	Significant unobservable	Range (weighted
	June 30, 2018	technique	input	average)

	June 30, 2017	technique	input	average)
Non-derivative equity instrument:				
		Net		
Unlisted shares	\$ -	asset value	Not applicable	Not applicable

(4) Effects on initial application of IFRS 9 and information on application of IAS 39 in 2017

A. Summary of significant accounting policies adopted in 2017:

(a) Available for sale financial assets

- i. They are non-derivatives that are either designated in this category or not classified in any of the other categories.
- ii. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using trade date accounting.
- iii. They are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets measured at cost'.

(b) Loans and receivables

Accounts receivable are loans and receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. They are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

- (c) Impairment of financial assets
 - i. The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
 - ii. The criteria that the Company uses to determine whether there is objective evidence of an impairment loss is as follows:
 - (i) Significant financial difficulty of the issuer or debtor;
 - (ii) A breach of contract, such as a default or delinquency in interest or principal payments;
 - (iii) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;
 - (iv) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
 - (v) The disappearance of an active market for that financial asset because of financial difficulties;
 - (vi) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
 - (vii) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
 - (viii) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

- iii. When the Company assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
 - (i)Financial assets at amortised cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

(ii)Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognised, such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset directly.

B. The reconciliations of carrying amount of financial assets transferred from December 31, 2017, IAS 39, to January 1, 2018, IFRS 9, were as follows:

	Available-for-sale-equity		Eft	fects	
	Measured at fair value through other	R	letained		
	comprehensive income-equity	e	earnings		ers equity
IAS 39	\$ -	\$	-	\$	-
Impairment loss adjustment			68,773	(68,773)
IFRS 9	\$	\$	68,773	(\$	68,773)

Under IAS 39, because the equity instruments, which were classified as: available-for-sale financial assets, amounting to \$68,773, were not held for the purpose of trading, they were reclassified as "financial assets at fair value through other comprehensive income (equity instruments)"; increased retained earnings and decreased other equity interest in the amounts of \$68,773 and \$68,773 on initial application of IFRS 9.

C. The significant accounts as of December 31, 2017 and June 30, 2017 are as follows: Available-for-sale financial assets

Items	Decem	ber 31, 2017	June	e 30, 2017

Accumulated impairment	(68,773)	(63,018)
Total	\$	_	\$	-

(a) The Company recognised (\$334) and (\$5,755) in other comprehensive income for fair value change for the three months ended June 30, 2017 and the six months ended June 30, 2017, respectively.

- (b) The Company assessed that the fair value of its equity investments in Branchy Technology Co., Ltd. had been in decline for an extended period of time, and Branchy Technology Co., Ltd. had applied for discontinuing its business from November 17, 2015 to October 16, 2018. Thus, the Company recognised the investment as fully impaired.
- (c) The Company assessed that the fair value of its equity investments in Hokuang Optics Co., Ltd., which had an accumulated deficit, was significantly lower than the original investment cost. On May 19, 2016, Hokuang Optics Co., Ltd. was delisted from the Taiwan Emerging Stock market, and thus the Company recognised an impairment loss of \$59,200 as of December 31, 2017 after its assessment.
- (d) No available-for-sale financial assets held by the Company were pledged to others.
- D. Credit risk information for the year ended December 31, 2017 are as follows :
 - (a) Credit risk refers to the risk of financial loss to the Company arising from default by the clients or counterparties of financial instruments on the contract obligations. According to the Company's credit policy, the Company is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored. Credit risk arises from cash and deposits with banks and financial institutions, including outstanding receivables.
 - (b) For the year ended December 31, 2017, no credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.

- (c) The Company's accounts receivable that are neither past due nor impaired are fully performing in line with the credit standards prescribed based on counterparties' industrial characteristics, scale of business and profitability.
- (d) The ageing analysis of financial assets that were past due but not impaired is as follows:

	Decem	ber 31, 2017	June 30, 2017		
Up to 30 days	\$	54,136	\$	31,185	
31 to 90 days		5,978		128	
91 to 180 days		92		-	
	\$	60,206	\$	31,313	

The above ageing analysis was based on past due date.

(e) Movement analysis of financial assets that were impaired is as follows:

As of December 31 and June 30, 2017, impairment losses of \$580 were assessed on a group basis.
